

## Barriers to and solutions for Engagement, Progress and Achievement in History -

*Clarity of instruction, explanations and modelling are crucial  
 Ensure that the most important aspect of learning is made clear – cognitive load theory is relevant for all pupils with SEND both in terms of what pupils see and hear and are expected to learn  
 For many pupils with SEND, it is the recording of the content rather than the content itself which provides the greatest level of challenge in lessons, and this should be addressed in the planning and preparation for lessons.*
